Adapter 318 - OBD Star - RH850/V850 Full Kit

Numer katalogowy	**195**

Opis produktu

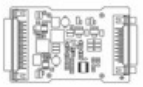

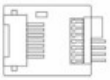

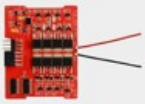

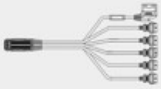

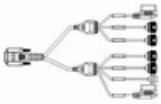

RH850/V850 Adapter Full Kit służy do: resetowania poduszek powietrznych, odczytu danych immo oraz kodu PIN (Dashboard, BCM, ELV itp.).
Wszystkie odczytane dane są niezaszyfrowane i można ich używać na urządzeniach innych firm!

Współpracuje z:
OBD Star Key Master G3
OBD Star Key Master 5
OBD Star P50

Możliwości:

Supported Functions		Needed Accessories
Volkswagen MQB48-5A key programming (component removing free) (MQB49-5C under development)		**RH850/V850 Adapter Full Kit** RH850/V850 Adapter Kit, MQB Collector, ECM-001, TCM-KIT 1 (Or separately purchase TCM-001, TCM-002 and TCM-005 connectors), TCM-030, M002, TCM-MAIN, Converter V2
D70F3529 Dashboard	1. Support read all data; 2. Support IMMO data decryption (VIN/CS/power class, etc.); 3. Support BLADE AKL synchronization code calculation (G3 Support dashboard/ECM/TCM data reading and IMMO data decryption by BENCH/BOOT); Support ECM models (with dedicated cables): DCM6.2V, EDC17C64, EDC17C74, ME17.5.22, MED17.5.21, MED17.5.25, SIMOS18, etc. Support TCM models (with dedicated cables): AQ250, DQ200, DQ250, DQ380, DQ381, DQ400, DQ500, etc. 4. Support PROXIMITY AKL synchronization code calculation (calculated by dashboard, ECM, TCM and ELV IMMO data); ELV IMMO data acquisition method 1: Read D70F3624/SPC560 ELV data and decrypt IMMO data through MP001 and RH850/V850 adapter. ELV IMMO data acquisition method 2: Collect ELV authentication data from dashboard connector through MQB collector, calculate ELV IMMO data by dashboard, ECM and TCM IMMO data. 5. Support synchronization code reading from worked key; 6. Support continental VDO dashboard IMMO data reading by OBD; 7. Support MQB used TCM replacement (upcoming upgrade); 8. Support MQB used ECM replacement (upcoming upgrade); 9. Support KYDZ keys.

R7F701042 (upcoming upgrade)	Suzuki, Volkswagen (data R/W +crash erase)	

Zestaw zawiera:

RH850/V850 Adapter Full Kit			
Accessories	**Product Image**	**Schematic**	**Description (Applicable Model)**
C4-06			RH850/V850 Adapter Kit Airbag reset, IMMO data/pincode read (Dashboard, BCM, ELV, etc.)
W010			
W010A			
C4-06-C01			
C4-06-C02			
Dedicated decryption jumper (5 sets)			
MQB Collector			Collecting ELV/TCM authentication data through the dashboard connector
ECM-001			Reading IMMO data, ECU flasher DCM6.2V MED17.5.25 MED17.5.21 ME17.5.22 EDC17C64
TCM-KIT 1			Reading IMMO data, ECU flasher DQ200 (TCM-001) DQ250 (TCM-002) DL501 0B5 (TCM-003) DL382 (TCM-004) DQ380/DQ381/DQ500 (TCM-005) VL381 (TCM-006) VL300 01J (TCM-007) Note: TCM-001, TCM-002 and TCM-005 connectors can be purchased separately.
TCM-030			Reading IMMO data, ECU flasher DQ400E
M002			Power cable Used to draw power from the battery when reading ECM/TCM data in the car.
TCM-MAIN			TCM dedicated extension cable by BENCH Used for directly reading TCM data on the vehicle
Converter V2			OBD to HDB15 adapter Compatibility with third-party diagnostic devices, reading TCM data by BENCH
